General Chemistry I w/lab	4-5					
General Chemistry II w/lab	4-5					
Organic Chemistry I	3					
Organic Chemistry II	3					
Organic Chemistry Lab	2					
Biological Sciences**	12-16					
**4 hours must be Microbiology w/lab						
Elective Requirements						
English I	3					
English II	3					
Electives***	24					

ADDITIONAL PRE-REQUISITE INFORMATION

*These are minimum requirements. A preference will be given to applicants who have successfully completed a biochemistry course, upper-level sciences, both human anatomy and physiology and/or have received a bachelor's degree.

**In order to be best prepared for pharmacy school and the PCAT, it is highly recommended that applicants complete zoology or general biology, microbiology(required), and at least either human anatomy or human physiology.

***Electives can be chosen from these subject areas: Fine Arts (non-performance based), History, Political Science, Anthropology, Humanities, Geography, Philosophy, Literature, Social Science, Behavioral Science, Foreign Language, Communications, English. A maximum of six hours in statistics, business or computer science may be counted in the elective hours. Students are expected to have a computer proficiency level at or above basic word processing skills. Students are encouraged to select a diverse set of courses as preference is given to those with a broad-based educational background that includes a diversity component.
