

2 YEAR PLAN TO COMPLETE PRE-PHARMACY REQUIREMENTS

Please be aware that this only applies to those who have to start from the beginning. If you have previous college credits or AP credits, your plan would look differently. It is highly recommended to meet with the COP admissions advisor as early as possible to individualize your plan.

Summer Semester Year 1	Minimum Required Hours	Total Hours
College Algebra or Precalculus*	3	3
Total Semester Hours		3
Fall Semester Year 1	Minimum Required Hours	Total Hours
General Biology	4	4
General Chemistry 1	4	4
English Composition 1	3	3
Elective	3	3
Total Semester Hours		14
Spring Semester Year 1	Minimum Required Hours	Total Hours
General Microbiology	4	4
General Chemistry 2	4	4
English Composition 2	3	3
Business Calculus or Calc I	3	3
Total Semester Hours		14
Summer Semester Year 2	Minimum Required Hours	Total Hours
Electives	6	6
Total Semester Hours		6
Fall Semester Year 2	Minimum Required Hours	Total Hours
Organic Chemistry 1	3-5	3-5
Human Physiology or Anatomy	4	4
Electives	6	6
Total Semester Hours		13-15
Spring Semester Year 2	Minimum Required Hours	Total Hours
Organic Chemistry 2 w/lab	5	5
General Physics I	4	4
Electives	6	6
Total Semester Hours		15
Total Required Hours		64

NOTES:

1. Please note that College Algebra or Precalculus (sometimes called Functions & Modeling) count as an elective.*
2. Please check with your undergraduate institution to determine if College Algebra or Precalculus is the prerequisite to enroll in Calculus. This requirement varies by institution.
3. Please check with your undergraduate institution to determine if College Algebra is a prerequisite to enroll in General Chemistry I. If so, you may need to take the course in the summer prior to beginning your freshman fall semester.
4. We accept AP/IB and CLEP credit for pre-pharmacy coursework as long as it is transferred to and appears on your primary college or university's transcript and can be verified.
5. Pre-requisites may be completed at any regionally accredited college or university. An individual will want to have certain subjects completed prior to attempting the PCAT. It is not recommended to attempt the PCAT until following completion of the Fall semester Year 2.
6. Please note that some schools combine organic chemistry lecture and labs, physics lecture and labs, or microbiology lecture and labs into one course. At minimum, each student must complete 8 total hours of organic chemistry including lab, 3 hours of physics (no lab required), and 4 hours of microbiology w/lab .
7. A minimum of 24 hours of electives must be successfully completed. Approved subject areas for electives may be selected from the areas listed below. **(Please note, the examples are not exhaustive nor specifically required. They are just a reference tool.)**
8. **It is highly recommended (though not required) that students select the following electives as a part of their 24 hours:**
 - a. An additional math course
 - b. A computer science course
 - c. A course with a diversity component
 - d. An economics course
 - e. A communications course (interpersonal or public speaking)
 - f. A behavioral science course (psychology or sociology)

APPROVED ELECTIVE SUBJECT AREAS:

Subject Area	Examples
